Co-operative Stories about SPACE

You land on the moon and find some craters. We landed and saw lots of mountains on the moon. Then, we walked along and met somebody that we didn't know. A SPACE ALIEN! He was all green and his teeth were all red. He was naked. He had yellow hair and a tail. His nose was orange. He had fangs sticking out from his nose. On his antennae were his eyes. He had black eyes.

He met another Alien. They talked together. They said, "Let's get out of here!" The astronaut is strange! They threw each other off the moon. Then the astronaut went back to space.

And when he looked out the window, he saw the two aliens falling in love. The two Aliens fell down. When they fell down to the ground, they got broken. The astronaut took the pieces back home.

We're traveling through space and we find an unidentified flying alien. We took our lasers and blasted it. After we blasted it, we went to the moon. We saw more Aliens and destroyed them. We saw spaceships. The view of the world was very pretty. We flew to Mars in one of our spaceships. We were going to see if there were any Martians! We found some. They were covered with snow. They were so freezing, they had to make a fire to warm up. There was cryptonite in the Spaceship. The Aliens were allergic to it. We floated to planet Crypton. Some of us had Jet Packs and went to Jupiter. There's a hundred-mile pit on it. We Saw a monster. It was big! It was 100 feet high and 1 inch wide. He kicked us in the water. But a Sea Monster kicked us out! We pushed the monster in the water because his feet were so small, he wasn't balanced.

FIRST GRADE CREATIVE WRITING

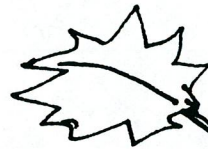

"If I were a leaf..."

I was on my branch and a big gust of wind (came) and it blew me right off my branch and made me fly into space and I flew out to jupiter and I was about to land and I started to fall into space and fell onto my back on my tree but right as I attatched to my branch it began to break and it finally broke and I began flying again and I was flying again and this time I flew to Mars and I looked down at Mars and I was done.

Rachel Silverman

If I were a leaf I would fly around the world. And I would see all the leaves all the same colors as me. Now I had started my trip. Now I am flying over the ocean. But remember that is just the beginning of my vacation. I am having fun already. I am flying over now. Oh boy, I sure am having a lot of fun! Now I am thinking of when I was flying over the ocean.

Sara Johnson

When I fell off the tree I would see Joleah and we would fall in the water and find land.

Christine White

If I was a leaf, I would take my friend up to space to see spaceships that sweat and we would see the sun.

Bennett Larsen

If I was a leaf I would go up to the moon. And if I went a couple of other places I would land a lot of places and the wind would pick me back up. I would be real happy and surprised that I could fly.

Megan Laney

I would fly up in the sky. I would go into space and see the sun and Saturn. Then I would land far away from the tree that I fell off of.

Phoebe Kenney

I would go up to spin my green stem and my stem would spin and spin.

Robbie Brown

When I had my body on the tree just that moment I felt the
wind and I flew through the air and at that moment I hit the ground.
Patrick Flynn

If I was a leaf I would fly up to space and crash into a planet.
Robin Detling

If I was a leaf I would fly off my tree all around up into the sky.
I see all the whole world, all the neat buildings, all the cars, all
the trees. All the trees have my friends on them. I swoop down to
say "Hi" to them. Then I would fly up to space.

Scot Gordon

When I fell off the tree I met Christine and we holded hands and fell
in the water. It was fun! And we floated down the river.

Joleah Bell

If I were a leaf I would fly to the sun. I would get sunburned.
I would fall to ashes. I wouldn't feel like anything because I
would be ashes.

Erica Mohan

Mualimu Collins

Long, Long ago there was a beautiful town but it got destruction
by a earthquake and I will tell you how they put it back together.
Now this is how they put the destruction back together. Well they
fixed the street, they fixed the trees, they fixed the house,
they fixed the bridge.

Fana Gebeyehu-Houston

A earthquake is caused because God is playing basketball with the
earth and that's how the earth shakes.

Erica Mohan

A long time ago some thunder hit the earth. God wasn't sure what
had happened. The earth shook fast and the thunder was hot.

Bennett Larsen

When there is a earthquake god is playing basketball with the earth
and the hoop was the Milky Way. I think that god has fun and he
doesn't think about us.

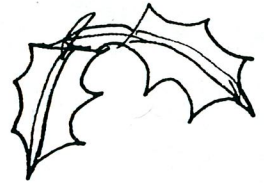

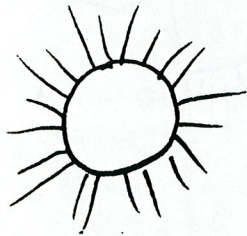

Rachel Silverman

I thought that God is kicking the earth and it flew a way and landed in Oakland, California.

Robbie Brown

A long time ago there was a fierce creature that lived under the earth. When it walked it made a earthquake on the earth.

Phoebe Kenney
